

Thank you for purchasing the **Coop Tower**. This page lists all the contents included in the box. Please take the time to identify the hardware as well as the individual components to this product. As you unpack and prepare for assembly, place the contents on a carpeted or padded area to protect them from damage.
 Note: 2 people are required to safely assemble this product.

wall mounting hardware

1 - wall bracket

1 - wall strap

1 - screw

1 - plastic anchor

Missing hardware?
 Please call **800.606.6387** for replacements.

tool required

(We recommend the use of hand tools instead of power tools)

components

1 - tower assembly

optional wall mounting assembly

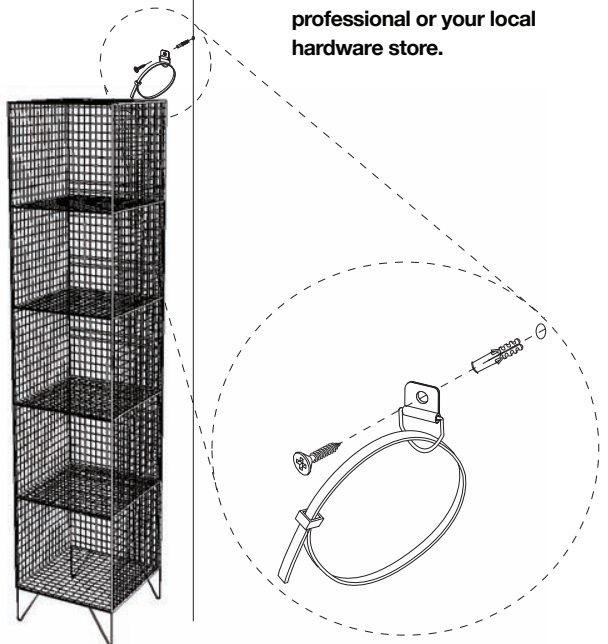

These instructions are for drywall mounting only.
 For safe installation it is essential to use hardware appropriate for your wall type. Mount to wood wall studs whenever possible. If you are unsure of what type of fasteners to use, consult your local hardware store or a qualified professional. This product is only a deterrent, it is not a substitute for proper adult supervision.

- A. With the assistance of another adult, place the unit in desired location against the wall. Mark the hole location for the **wall bracket** onto the wall. Move the unit out of the work-space.
- B. Drill hole slightly smaller in diameter than the **plastic anchor**. Insert the **plastic anchor** into the hole until it is flush to the wall.
- C. Insert 1 **screw** through bracket and into the anchor. Secure, but do not over tighten with a **phillips head screwdriver**.
- D. Place the unit back into position against the wall and thread the **wall strap** through bracket and top of tower assembly as shown. Pull wall strap until tight.

Wall mounting is now complete.

WALL

NOTE: If you are unsure about your wall type or what mounting method you should use, consult a qualified professional or your local hardware store.

cleaning & care

Clean surfaces with a dry or damp soft cloth. Do not use abrasive cleaners.
