

Thank you for purchasing the **Infinity Floor Mirror**. This page lists all the contents included in the box. Please take the time to identify the hardware as well as the individual components to this product. As you unpack and prepare for assembly, place the contents on a carpeted or padded area to protect them from damage.
 Note: 2 people are recommended to safely install this product.

hardware

Missing hardware? Please call **800.606.6387** for replacements.

1 - screw

1 - plastic anchors

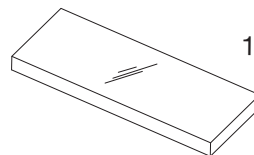

2 - brackets

1 - wall strap

components

1 - mirror

tools required

power drill (for pilot holes only)

phillips head screwdriver

(We recommend the use of hand tools instead of power tools)

cleaning and care

Clean surfaces with a dry or damp soft cloth.
 Do not use abrasive cleaners.

NOTE: If you are unsure about your wall type or what mounting method you should use, consult a qualified professional or your local hardware store.

Safety Wall Mounting Instructions

For added safety and stability, it is recommended that the wall mounting hardware be installed. For safe mounting, it is essential to use wall anchors appropriate to your wall type (i.e. plaster, drywall, concrete, etc.). Mount to wood studs whenever possible.

A) Determine the final location of unit. Mark position on the wall, approximately 2" below the wall bracket mounted to the back of the unit.

B) Drill a hole in the wall stud. If the wall stud is not available, drill a hole in the wall that is slightly smaller in diameter than the anchor. Gently tap the **plastic anchor** until the flange of the anchor is flush with the wall.

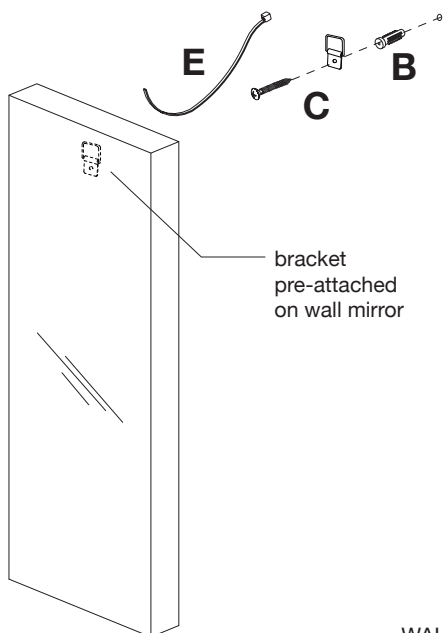

C) Attach **wall bracket** to the wall by inserting 1 **screw** through the plastic anchor and into the wall.

D) Place the unit so the wall bracket is aligned with the wall brackets on the wall.

E) Lace one end of the **wall strap** through both brackets, and into the other end of the strap.

F) Pull the strap tightly until secure.

Wall mounting is now complete.
